#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. This permit is issued subject to State Engineer's Ruling No. 5490.

The total combined duty of water under Permits 71776 and 71942 is limited to 0.41 cubic feet per second and 296.83 acre-feet for the period of use.

The permittee shall provide the State Engineer with a static water level measurement from each well before pumping begins and at the cessation of pumping and a report on the total quantity of water pumped. The permits will expire at the completion of the road repair project or June 1, 2006, whichever occurs first.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any wells drilled or utilized under Permits 71776 and 71942 must be plugged in accordance with the Nevada Administrative Code, Chapter 534.420, "Regulations for Water Well and Related Drilling" within 60 days of the expiration of these permits, but not later than August 1, 2006. Failure to plug these wells will result in further administrative action by the State Engineer.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.41 cubic feet per second, but not to exceed 296.83 acre-feet annually.
